9) The Kingdom Code of Ethics Principle

This is the standard of conduct established by the king for the behavior and social relationships of his citizens. This is also the expectation of the king regarding the values and moral standards the citizens must adhere to. The code of ethics becomes the foundation of the kingdom culture and manifests itself in the lifestyle of the citizens.

- 1 Cor. 6:9-11

10) The Kingdom Commonwealth Principle

All kingdoms function on the principle of a commonwealth. Commonwealth is the king's commitment to see that all of his citizens have equal access to the wealth and resources of the kingdom. This is important to the king because the quality of life of the citizens of a kingdom reflects the glory and reputation of the king. When the welfare of the king's citizens is excellent, then the king's reputation among other kings is honorable. Kingdoms provide for all the needs of their citizens; and the king is personally committed to and involved in the welfare of his citizens.

- Matt. 6:31-33
- Psalm 84:11

11) The Kingdom Culture Principle

This is the lifestyle and way of life for the citizens manifested in their language, dress, eating habits, values, morals, and sense of self-worth and self-concept.

- John 17:15-19
